

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:**

Claim 1 (previously presented): A cosmetic non-sticky moisturizer for skin and hair comprising:

- (a) at least about 10% by weight of the composition of a polyhydric alcohol humectant;
- (b) about 0.01% to about 10% of a polymeric wetting agent which forms a uniform film in a Wetting Test;
- (c) an elastomer;
- (d) a cosmetically acceptable vehicle.

Claim 2 (canceled)

Claim 3 (original): The composition of claim 1 wherein the polymeric wetting agent is selected from the group consisting of:

- (b1) an amphipathic block copolymer;
- (b2) a polymer containing a hydrophilic backbone modified with hydrophobic groups; and
- (b3) mixtures thereof.

Claim 4 (original): The composition of claim 1 wherein the composition further comprises a volatile silicone oil.

Claim 5 (original): The composition of claim 1 wherein the composition further comprises a crystalline fatty acid.

Claim 6 (original): The composition of claim 1 wherein the composition further comprises an oil.

Claim 7 (original): The composition of claim 1 wherein the amount of the humectant in the composition is about 10% to about 90%.

Claim 8 (previously presented): A cosmetic non-sticky moisturizer for skin and hair consisting essentially of:

- (a) about 10% to about 90% by weight of the composition of a polyhydric alcohol humectant;
- (b) about 0.01% to about 10% of a polymeric wetting agent which forms a uniform film in a Wetting Test;
- (c) an elastomer;
- (d) a cosmetically acceptable vehicle.

9. (canceled)

Claim 10 (previously presented): The composition of claim 8, wherein the composition further optionally includes a volatile silicone oil.

Claim 11 (previously presented): The composition of claim 8, wherein the composition further optionally includes a fluid oil.

Claim 12 (previously presented): The composition of claim 8, wherein the composition further optionally includes a crystalline fatty acid.

Claim 13 (previously presented): The composition of claim 8, wherein the polymeric wetting agent is selected from the group consisting of:

- (b1) an amphipathic block copolymer;
- (b2) a polymer containing a hydrophilic backbone modified with hydrophobic groups; and
- (b3) mixtures thereof.

Claim 14 (previously presented): The composition of claim 8, wherein the polymeric wetting agent is (b2) a polymer containing a hydrophilic backbone modified with hydrophobic groups.

Claim 15 (New): The composition of claim 1, wherein said polyhydric alcohol is glycerol present in an amount of about 30 % to about 99.75 % by weight of the composition; and wherein said polymeric wetting agent which forms a uniform film in a Wetting Test is present in an amount of about 0.25% by weight of the composition.
